P.V.C. BANNERS

CARE INSTRUCTIONS

Please follow these simple instructions to give your new P.V.C. Banner the longest life possible.

All our banners are lettered with a **SPECIAL** soft banner grade lettering which flexes with the soft P.V.C. of the banner, to make sure your banner has the best possible life span please follow these simple instructions:

1. All our banners are dispatched rolled around a cardboard tube with the graphics **FACING OUT**.
2. When not in use it is **VERY IMPORTANT** to roll the banner around the supplied tube, **ALWAYS** roll with the graphics facing out, **NEVER** roll with the graphics facing in, this will damage the graphics and cause them to wrinkle.
3. **NEVER** fold or crease the banner, **ALWAYS ROLL** with the graphics facing out.
4. We recommend, when not in use to take the banner down and store as above.

CLEANING INSTRUCTIONS

1. From time to time wipe the banner over with a soft cloth and mild soap solution, being careful not to lift any of the graphic edges as you wipe, do this carefully and gently, **DO NOT** rub forcefully over any of the graphics.
2. **NEVER** use any harsh or abrasive cleaners, **NEVER** use solvents, doing so will damage the banners surface and the vinyl graphics.
3. When storing we recommend you wipe the rear of the banner also, to remove dirt and abrasive particles, this will help protect the graphics when you roll the banner, remember always store with the graphics facing out, as it was supplied to you.
